5. It is seen from letter No M.C. C 1044/41-42 dated 11th August 1942 of the President, Mysore Municipal Council that the new incumbent is to be appointed to look after (i) unauthorised restoration of water supplies which have been cut off for non-payment of arrears (ii) to detect surreptitious connections given to portions of the same house or to neighbours without permission (iii) to detect cases of non-taxing of meters for new constructions etc and to buildings

6. The duties mentioned by the President, are those that more or less are now being attended to by the Meter Inspector working under the Superintendent, Vani Vilas Water Works, Mysore Disconnections for default of payment are being advised by the Municipal President and as soon as the Superintendent, Vani Vilas Water Works receives such requisitions, the same are being attended to by him Cases of default under all the three heads will have to be dealt with suitably and parties punished The Sanitary Engineer is of the opinion that if these duties, as noted above, are entrusted to the newly proposed hand, it will lead to confusion and over-lapping, which will have to be avoided in the interest of efficiency of work As such, on account of the above three counts, it does not seem to be necessary to appoint the new hand, since there are already Meter Inspectors

7 Thus It is

Serial No

It is seen from the note appended to the President letter that the proposed Revenue Inspector is expected to attend to the following duties

(1) Issuing distraint warrants and

(2) demand notices relating to water revenue arrears,

(3) collection of arrears due to sewage farm and sale of plants from the nursery,

(4) Inspection of houses in respect of flush latrines and grant of free allowances thereon, etc

(5) In addition, he is proposed to be given indoor work such as, being the Head Clerk of the Vice-President's Section,

(6) watching the progress of collection and taking necessary steps for recovery of arrears,

(7) general supervision of water revenue staff, attending to urgent correspondence and inspection work connected with the sewage farm and Nursery,

(8) attending to miscellaneous works connected with Hackney carriage, etc

Since these duties will not have practically any connection whatsoever with the Annual Maintenance of the Water Supply, the proposal of the Municipal President to debit the pay to the [illegible] of Rani Vilas Water Works does not seem to be reasonable The pay of the Revenue Inspector will have to be debited to Municipal Funds

DIRECTOR OF PUBLIC HEALTH

JBP

The appointment may be sanctioned temporarily for six months / The expenditure

CITY MUNICIPAL COUNCIL MYSORE

Date 11th August, 1942

From

ml 11-42-15

B S RAGHAVENDRA RAO Esq M A (H)
PRESIDENT CITY MUNICIPAL COUNCIL
MYSORE

To

C NARAYANASWAMY NAIDU, ESQ , B A ,B L ,
Secretary to the Government of His Highness
the Maharaja of Mysore, Law Department,
Bangalore

SFCY LAW DEPT 1 1942 GOVT OF MYSORE

SIR,

Subject - Appointment of a Revenue Inspector for collection of Water Revenue arrears and to attend to the Executive duties of the Water Revenue Section

In forwarding herewith the Municipal Council Resolution No 1044 dated 31st July, 1942 regarding the above along with the Vice-President's note dated the 25th June 1942 I have the honor to state as follows -

Several cases of (1) unauthorised restoration of water-supply where supply was cut off for non-payment of arrears (2) surreptitious connections given to portions of the same house or neighbours without permission (3) non-fixing of meters in cases of constructions etc , to buildings etc , for want of application or report having been observed it was felt that this position could be improved if there was a separate Revenue Inspector entirely for the Water Revenue Section

In this City, in accordance with Government Order No L 4285-8-Ml 84-26-6 dated 4/7th January 1927 the collection of Water Revenue vests in the City Municipality the water-supply department furnishing the readings and also taking action on our requisition to cut off installations when required due to non-payment of arrears and restore when arrears are paid etc Partly owing to this it is necessary to carefully scrutinize cases of unauthorised installations of water, surreptitious connections, non-fixing of meters etc, and this Revenue Inspector - it is expected will be very much useful for this work Again even

for the service of notices bills, collection of arrears etc at present this work is done by the Revenue Branch of the Municipality It is proposed to entrust all this work to the Revenue Inspector

This matter was discussed in detail both in the - Managing Committee and in the Council when the following resolution was passed

> A special Revenue Inspector may be appointed for a period of six months in the first instance There is no need to combine this with the Head Clerk's post This will be treated as an additional hand In the meanwhile this may be referred to the Re-organization Committee"

The small extra cost on account of the temporary appointment viz Rs 40+5 C A = 45/- per mensem or Rs 270/- for six months may be met out of the Annual Maintenance estimates of the Vani Vilas Water Works

I request that sanction may kindly be accorded to the same If the system works satisfactorily separate reference will be made

I have the honour to be,
Sir,
Your most obedient servant

B Seshavendar

NOTE

Re - The appointment of a Revenue Inspector exclusively for the Water Revenue Section

====

In continuation of the previous note I should like to urge the following points for the consideration of the Municipal Council in respect of appointment of a Revenue Inspector for the outdoor and indoor work for the Water - Revenue Section and the Sewage Farm and Hackney Carriage Section work delegated to the Vice-President

The present arrangement, regarding the outdoor and indoor work to be effected through the Revenue Section, has been to make a reference through the Revenue Officer to direct his subordinates -- either the Revenue Inspector or the concerned mutsaddies--to inspect and report on the points noted hereunder below This would entail naturally a good deal of correspondence between one Section and the other Section and routine delay in registering and passing orders and taking action thereon A good deal of stationery, besides saving work on the part of the staff could be economised Besides a good deal of work both for the Revenue Officer as well as for the Vice-President, in case the Revenue Inspector is appointed exclusively for carrying on the outdoor work taking orders directly from the Vice-President could be saved

In my previous note I had suggested that out of the existing Revenue Inspectors in the Revenue Section one Revenue Inspector might be spared to attend exclusively to this work It has been pointed out that the Revenue Section has enough work for the five Revenue Inspectors now working in the Revenue Section and therefore it would be better to have a separate Revenue Inspector appointed exclusively for the Vice-President's Section noted above If a Revenue Inspector is appointed separately, it would also facilitate speedy disposal of urgent applications and petitions

The following outdoor work has to be carried on with the help of a Revenue Inspector

1 Cases of removal of meters regarding the construction of houses

2 Installation of meters soon after the commencement of construction or extension of houses,

3 Cases of distraint warrants and demand notices relating to Water Revenue arrears

(a) Flat rate arrears
(b) Non-domestic service arrears
(c) Excess Water Charges
(d) Hackney Carriage demand notices and distraint warrants
(e) Arrears due to Sewage Farm and sale of plants, etc , from the Nursery

4 Inspection of houses in respect of flush latrines and grant of free allowance thereon (This inspection is being done through the Health Department by reference to the Health Officer It is taking on an average about a minimum of 10 to 15 days to get information from the Health Department

5 Inspection and report of cases of water dis-connection, removal and installation of public taps Installation and removal of water sub-mains, inspection of house taps in cases suspected of misuse

6 The inspection of domestic usuage of house connections

7 Spot inspection of laying out submains and public fountains

INDOOR WORK

1 To be the Head Clerk of the Vice-President's Section

2 Watch the progress of the collection and take necessary steps for recovery of arrears

3 General supervision over the Water Revenue Staff

4 To attend to the correspondence and urgent inspection work connected with the Sewage Farm and the Nursery Any o t h e r miscellaneous work connected with the Hackney Carriage Section

The above outdoor work could be entrusted to one Revenue Inspector if he is appointed exclusively for the Water Revenue Section as the Head Clerk of the Section He could look after the indoor work and the inspection work or outdoor work during the morning hours

This may kindly be placed before the ensuing Municipal Council for kind consideration and sanction

Sd) P Sitaramiah,
25-6-42
VICE-PRESIDENT

===

The proposal of the Vice-President is to have a Head Clerk Cum Revenue Inspector for the Water Revenue Section I agree with him that this is necessary and may be sanctioned for one year in the 1st instance

In the meanwhile the Water Revenue Section may furnish the data called for by me to support the above

A proposition statement may also be put up
